## Day and night work: M1 Pacific Highway widening for pullover bay and intelligent transport communication systems

Dear resident,

As part of the NorthConnex project, a pullover bay is being constructed on the M1 Pacific Motorway northbound at Carrington Street. Intelligent transport communication systems will also be installed under the road to help monitor and improve traffic flows when the NorthConnex tunnel is operational.

The work will be carried out from Carrington Street, Wahroonga to 150 metres north of Burdett Street and will take about six months to complete, weather permitting. A map of the area is included.

The work will be carried out during standard construction hours between **7am and 6pm Monday to Friday** and **8am and 1pm on Saturday**, however for the safety of motorists and workers, some of this work will be carried out at night between **9pm and 5am**. Night work is scheduled to start on **Sunday 27 May**, weather permitting.

Work activities include:

- > earthworks, excavation and pavement construction
- > tree and vegetation trimming and removal
- > rock trimming, shoulder shaping and drainage works
- > installation of utilities, conduits and signage
- > rehabilitation of work areas.

Plant and equipment to be used includes cranes, excavators, heavy and light vehicles, lighting towers, generators, scaffolding, rattle guns, hammer drills, grinders, chainsaws, mulchers, rollers, bob cats, concrete trucks, street sweepers, water carts and pumps, elevated work platforms, profiler, concrete saws and pumps, core drills, line marking and removal plant and hand tools.

You will experience some noise but we will make every effort to minimise impact by:

- > scheduling noisy work to take place no more than two nights in a row and limiting noisy work to no more than three nights in one week at the same location
- > turning off equipment and vehicles when not in use
- > using solar-powered lighting towers.

Lane closures, traffic control and pedestrian management will be in place for the safety of motorists, residents and workers.
