Dear Resident

Have your say: proposal for a permanent electronic message sign on Beecroft Road, Beecroft

Further to our earlier notification about site investigations to identify a suitable location for a permanent electronic message sign on Beecroft Road, near the intersection of Albert Road Beecroft, we are now seeking your feedback on the proposed location for this sign.

What are we doing?

As a result of the site investigation and survey work recently carried out we have been able to identify a suitable location for the sign proposed in your neighbourhood as indicated by the map below. This location is preferred because it:

- Has a minimal impact on residents from a safety and visual perspective
- Provides sufficient sight distances on approach for motorists
- Does not conflict with existing road signage.

Proposed location: Beecroft Road, Beecroft

Why are the signs needed?

The permanent electronic message sign will allow for the efficient operation of the road network by providing road users with advance notice of planned and unplanned incidents impacting the NorthConnex tunnel and road network. The sign will provide live, up-to-date information about changes to road conditions such as road work, vehicle incidents and disruptions to motorists.
