Sign investigation and installation works on the Hills M2 near Kent St, Epping

Dear Resident

As part of the NorthConnex project, new traffic signage is needed on the approach roads to the tunnel. One of these signs will be located on the Hills M2 westbound near Kent St, Epping.

We will be carrying out sign investigation and installation works from Tuesday, 7 July 2020. It will take up to six weeks to complete the works. We will complete most of this work at night to minimise impact on traffic and to keep our workers and the community safe.

We have included a map to show the location of the work.

How will the work affect you?

The site investigation and installation works will involve locating underground services and utilities, surveying topography and surface features, drilling, minor excavation and backfilling, minor footpath disturbance and reinstatement, tree trimming, foundation installation and structure installation.

You will experience some noise and we will make every effort to minimise impacts by:

- > consulting with directly affected residents
- > using non-tonal reversing beepers on all machinery
- > turning off equipment and vehicles when not in use
- > using noise blankets where possible
- > working no more than two nights in a row and no more than three nights in any week
- > directing noise generating equipment away from residential properties where possible.

Work hours

Day – 7am to 6pm Monday to Friday,
8am to 1pm Saturdays
Night – 8pm to 5am Sunday to Friday

BUILDING OUR FUTURE

Transurban

Traffic management

Traffic management, lane closures and signage will be in place to ensure the safety of motorists, residents and workers. Please allow extra travel time and visit livetraffic.com, download Live Traffic App or call the Transport Management Centre 132 701 for the latest information.

Plant and equipment

Plant and equipment that will be used includes a vacuum truck, potholing truck, drill rig, demolition saw, vibrating plate, service scanning trolley, survey equipment and hand tools.

Thank you for your patience during this important work.

Yours sincerely

NorthConnex Project Team
