Night work: M1 Pacific Motorway traffic realignment, Wahroonga

Dear resident

As part of ongoing M1 Pacific Motorway widening work, the project team will temporarily divert northbound and southbound traffic onto the median between Alexandria Parade Bridge to 700 metres north of Edgeworth David Avenue, Wahroonga. The traffic realignment will be in place until late 2019 to allow us to safely build the northbound tunnel exit ramp, southbound tunnel entry ramp, northern ventilation outlet and noise walls.

Due to the high traffic volumes on the M1 Pacific Motorway and for the safety of workers and motorists the work will take place from Thursday 12 January 2017 between 9pm and 5am. There will be no work on Saturday nights. Work is expected to take up to three weeks to complete, (northbound Thursday 12 January to Monday 23 January 2017 and southbound Tuesday 24 January to Monday 6 February 2017) weather permitting. If work is unable to take place as scheduled, it will be carried out the following week.

The main work activities include:

- > Asphaltting
- > Removing one kilometre of concrete barriers in the M1 median between Alexandria Parade and 700 metres north of Edgeworth David Avenue
- > Removing existing line marking and installing new line marking
- > Relocating the barriers to the northbound and southbound shoulders between Alexandria Parade and Edgeworth David Avenue
- > Installing road work signage to indicate the new traffic arrangement.

Plant and equipment for this work includes cranes, light vehicles, lighting towers, rattle guns, hammer drills, grinders, generators, semi-trailers, rollers, a bob cat, concrete trucks, a street sweeper, a water cart, concrete saws and core drills, line marking and removal plant and hand tools.

You will experience noise during some of these activities and we will make every effort to minimise impact by:

- > Consulting with directly affected residents

Australian Government

BUILDING OUR FUTURE

Transurban

- > Ensuring noisy work is not undertaken more than three nights in one week
- > Using non-tonal reversing beepers on all machinery
- > Turning off equipment and vehicles when not in use
- > Using solar-powered lighting towers.

Traffic control and pedestrian management will be in place to ensure the safety of motorists, residents and workers.

Please allow extra travel time and visit livetraffic.com, download Live Travel App or call the Transport Management Centre 132 701 for the latest information. Access will be maintained for motorists at all times.

NorthConnex is carrying out other work in the area including tree clearing and services relocations.

If you have any questions or complaints, please don't hesitate to call us on 1800 997 057 (24 hours), email enquiries@northconnex.com.au or visit the NorthConnex Community Information Centre at 118 Yarrara Road, Pennant Hills, open weekdays, from 9am to 5am.

Yours sincerely

NorthConnex Project Team
