Ref: N0183k

Day and night work: M1 Pacific Motorway widening, Wahroonga

Dear Resident,

Work is continuing on the M1 Pacific Motorway as part of the \$3 billion NorthConnex project to:

- > build the tunnel northbound exit and southbound entry portals and associated structures on the M1 Pacific Motorway
- > construct the northern ventilation facility above the tunnel northbound exit.

A map of the work area is provided.

Ongoing work includes:

- > mechanical and electrical fit out of the northern ventilation facility and tunnel
- > excavating to refine the tunnel's shape and exit and entry ramps including installation of soil nails and shotcrete, and removing spoil
- > building the M1 pullover and breakdown bays
- > installing Intelligent Transport Systems to assist with monitoring and managing traffic flow
- > road surface and tunnel work including concreting, asphaltting, line marking and saw cutting
- > installing lighting, drainage, retaining walls and permanent noise walls
- > removing and trimming vegetation
- > reinstatement work including landscaping, signs and paths
- > deliveries, survey, maintenance and inspection activities.

How will the work affect you?

You will experience some noise and we will make every effort to minimise impacts by:

- > consulting with directly affected residents
- > using non-tonal reversing beepers on all machinery

Work hours

7am to 6pm Monday to Friday,

8am to 1pm Saturdays

For the safety of motorists and workers, work may be carried out outside of these hours, in line with our environmental approvals.

Tunnel excavation, associated above ground activities and access to compounds is carried out **24 hours a day**.

Australian Government

BUILDING OUR FUTURE

Transurban

- > turning off equipment and vehicles when not in use
- > using lighting towers only where necessary
- > scheduling noisier work for completion earlier in the evening where possible
- > avoiding shouting or unnecessary noise and using radio communication.

Traffic management

Traffic control and pedestrian management is in place for the safety of motorists, residents and workers. Please allow extra travel time and visit livetraffic.com, download Live Traffic App or call the Transport Management Centre 132 701 for the latest information.

Plant and equipment

The project team will use heavy and light vehicles, concrete trucks, vacuum trucks, street sweepers, tipper trucks, line marking and removal plant, sweepers, concrete saws, bobcats, concrete breakers, lighting towers, surface profilers, asphalt pavers, grinders, mulchers, chainsaws, water carts, rollers, cranes, excavators with and without hammer attachments, hammer drills, core drills, rattle guns, generators, knuckle boom lifts, elevated work platforms, pumps and vibrators, piling rigs, underborers, jackhammers, surface profilers, power tools and hand tools.

Thank you for your patience during this important work.

NorthConnex Project Team
