

1 April 2016

Ref: N0050e

Dear Resident

Update on night work: Hills M2 Motorway - Pennant Hills Road on-ramp

Further to the notifications issued in late 2015 and in January and February 2016, regarding night work on the Hills M2 Motorway. Due to unforeseen weather conditions and delays to the planned closure of Hills M2 Motorway lanes, this work will recommence on 3 April 2016 on the Pennant Hills Road westbound on-ramp and on the main carriageway of the Hills M2 Motorway, both eastbound and westbound.

To minimise impacts, this work needs to be carried out at night due to the close proximity and high volume of traffic on the Hills M2 Motorway. Work will recommence on 3 April and is expected to be completed by the end of June 2016, weather permitting. The work will be carried out between **9pm and 5am Sunday to Thursday**.

Access to the Southern construction compound for workers and vehicles will be between 7pm and 7am. See overleaf for the dates of night work and the work location. Please note that if the work is unable to be completed on the nights indicated, it will be rescheduled and impacted residents will be notified in advance.

What are we doing?

Work will be undertaken to make necessary changes to the roadway and toll gantries on the Hills M2 Motorway westbound ramp to Pennant Hills Road.

Work will include:

- Installation of an access system along the westbound on-ramp wall
- Modification to the existing street lights and reconstruction of the M2 on-ramp
- Modifications to existing tolling gantries, including cabling and commissioning of tolling system
- Staged excavation work of the on-ramp
- Staged demolition of the existing retaining wall structure
- Temporary traffic barrier modifications including line marking.

Every effort will be made to minimise noise and light spill associated with this work by:

- Notifying residents and businesses before work starts near their property
- Using non-tonal reversing beepers on all machinery
- Turning off equipment and vehicles when not in use
- Scheduling noisy work to take place no more than two nights in a row and limiting noisy work to no more than three nights in one week at the same location
- Where possible direct noise generating equipment away from residential properties
- Coordinating respite for those most affected by noise.
