

March 2015

Ref: N0003

Dear Resident / Business owner

Clearing vegetation 11-12 Kingsley Close, Wahroonga

NorthConnex is a nine kilometre tunnel that will link the M1 Pacific Motorway at Wahroonga to the Hills M2 Motorway at West Pennant Hills, removing around 5,000 trucks off Pennant Hills Road.

Lend Lease Bouygues Joint Venture has been awarded the contract to design and deliver the work.

What are we doing?

In preparation for the establishment of the northern interchange compound site, the project team will be clearing and removing trees and vegetation located within the boundaries of properties acquired by Roads and Maritime for NorthConnex as indicated in the map on page 2.

Plant and equipment used for this work includes chainsaws, mulchers, wood chippers and trucks.

Work will start on 15 April and continue until late April, weather permitting.

Minor disruption to access, on-street parking and traffic in some locations may occur but will be managed safely and alternative road/property access will be provided if required.

You may experience increased noise during this period. We apologise for any inconvenience caused and will take steps to minimise any impact associated with this important work.

Please note that this clearing work will not cause vibration or have an impact on your property. Before any major construction activities take place on the site (including the removal of the existing building structures) a property condition survey will be carried out on your property. The project team will be contacting you in the near future to explain this process and arrange access to your property to complete the survey.
