Ref: N0050b

Dear Resident

## Update on night work: Hills M2 Motorway - Pennant Hills Road on-ramps

Further to our notifications of July and September 2015 regarding night work on the Hills M2 Motorway, some traffic changes have been made to the westbound on-ramp from Pennant Hills Road. With these changes, the following activities on the Pennant Hills Road westbound on-ramp and the main carriageway of the M2 eastbound and westbound are able to start:

- Trenching work along the median and the Hills M2 Motorway on-ramp to connect communications and power
- Removal of barriers, line marking and installation of new barriers on the M2 ramps
- Piling work which includes drilling, installing steel cages and pouring concrete.
- Modifications to existing tolling gantries, including installation of steel supports, cabling and commissioning of gantries.

This work needs to be carried out at night due to the close proximity and volumes of traffic on the motorway. Work will be carried out between **9pm and 5am Sunday to Thursday nights each week**. The work will be done from Monday 16 November 2015 to Thursday 14 January 2016.

During this time, workers and vehicles will access the Southern Interchange construction compound between 7pm and 7am. Please note: If the work is unable to be completed on these days, it will be rescheduled. See pages 2 and 3 for work location and dates of night work.

Due to the nature of work and equipment to be used, the work is likely to be noisy. Every effort will be made to minimise noise and light spill associated with this work.

Traffic management will be in place to ensure the safety of motorists, residents and workers. Variable message signs will be in place to advise of the changes to traffic conditions.
