

10 November 2015

Ref: N0078

Dear Resident

About NorthConnex

NorthConnex is a nine kilometre tunnel that will link the M1 Pacific Motorway at Wahroonga to the Hills M2 Motorway at West Pennant Hills, removing around 5,000 trucks off Pennant Hills Road. As part of NorthConnex, an additional lane of traffic will be provided on the Hills M2 Motorway in a westbound direction between Pennant Hills Road and Windsor Road.

Lendlease Bouygues Joint Venture has been awarded the contract to design and deliver the work. Construction work for NorthConnex started in June this year and it is expected to be completed in 2019.

Hills M2 Motorway Cycle Diversion – day work

From June this year, construction started for the modification of the Hills M2 Motorway on and off-ramps in preparation for a lane closure westbound between Pennant Hills Rd and Windsor Rd. This lane closure is required to enable construction of the extra westbound lane on the Hills M2 Motorway. Due to this lane closure, no bicycle facilities will be available on the Hills M2 Motorway in a westbound direction between Pennant Hills Road and Windsor Road.

To enable cyclists to continue to travel between these locations, a cycle detour will be provided (see map overleaf). Over the coming weeks this detour will be prepared and activities will include:

- Installation of signs
- Installation of bike stop/go lights
- Minor modification to kerbs
- Line-marking
- Modification to bridge at Moxhams Road
- Widening of footpaths
- Minor changes to bus shelters.

This work will be carried out over three weeks starting from **15 November 2015** between the hours of 7am and 6pm Monday to Friday and 8am to 1pm Saturday. Some night work may be required to minimise impact on traffic. We will notify you in advance if we need to do any work outside these times.

Traffic management will be in place to ensure the safety of motorists, residents and workers. Road users are asked to follow the direction of traffic control, reduced speed limits, traffic signals and signs.

Return 
**local streets to
local communities**

Up to 
5,000 trucks per day
off Pennant Hills Road

Up to 
15 mins **travel time
saving**

Deliver
improvements
to local **air quality**

Up to 
21
traffic lights
bypassed

improve 
the efficient movement of
state and national freight

Better and more
reliable trips
for people, businesses and freight

Every effort will be made to minimise any impacts and delays associated with the work.
