

24 June 2016

Ref: N0095

Dear Resident,

## Telstra services relocation work, Wahroonga

As part of M1 Pacific Motorway median widening work, new Telstra services are to be installed in two alignments. The first will be under Coonanbarra Road between Burns Road and Lochville Street, and the second is under the M1 Pacific Motorway between Lochville Street and Woonona Avenue (refer to map overleaf for location of work activities in Wahroonga).

### What are we doing?

The service relocation work is required as part of the delivery of widening work on the M1 Pacific Motorway for construction of two additional lanes, which will provide an entry and exit into the NorthConnex tunnel.

An underbore machine will be located on the north western corner of Bareena Avenue and Coonanbarra Road and on the eastern side of Lochville Street. The bore crosses underneath the M1 Pacific Motorway, east to west between Lochville Street and Woonona Avenue. All work will be carried out on council nature strips and within the Telstra alignment.

Service relocation work will begin on 1 July 2016 and is expected to take approximately 15 weeks to complete, weather permitting. Work will take place Monday to Friday, between 7am and 6pm and on Saturday between 8am and 1pm. This work will not impact your service connection.

The work involves:

- Identifying existing services along the new alignment
- Underboring along Coonanbarra Road and the M1 Pacific Motorway to the eastern side of Lochville Street
- Excavating a small trench along Coonanbarra Road on the nature strip
- Excavating five new service pits along Coonanbarra Road on the nature strip
- Installing new underground communication cables.

Plant and equipment for this work includes:

- Excavator
- Vacuum truck
- Underbore machine

Return
