Dear Resident

Barclay Road Bridge lengthening: installation of scaffold and temporary closure of the Barclay Road Interchange bus stop

NorthConnex is a nine kilometre tunnel that will link the M1 Pacific Motorway at Wahroonga to the Hills M2 Motorway at West Pennant Hills, removing around 5,000 trucks off Pennant Hills Road each day. For traffic travelling from the M2 in and out of the tunnel, work is being done to build an additional lane westbound between Pennant Hills Road and Windsor Road.

To accommodate the new westbound lane, the Barclay Road Bridge needs to be lengthened.

Construction activities to lengthen Barclay Road Bridge on the Hills M2 Motorway started in March 2016 and will take approximately 18 months to complete.

What are we doing?

As part of work to lengthen the bridge, scaffold will be installed underneath the bridge on **Friday 22 July, Saturday 23 July, Sunday 24 July 2016 between 7pm and 7am and Monday 25 July 2016 between 8pm and 5am.**

Work activities:

- Installing the temporary scaffold under the bridge
- Fixing bolts into the bridge deck
- Mounting the scaffold and installing the scaffold deck
- Installing edge protection and mesh
- Demolishing the barrier on the bridge surface.

Plant and equipment for this work includes an elevated work platform, hand tools, franna, trucks, light tower, excavator and saw.

There will be lane closures on the Hills M2 Motorway as part of this work and traffic management and signage will be in place to ensure the safety of motorists, residents and workers. Access will be maintained for motorists at all times.
