

9 September 2016

Ref: N0137

Dear Resident

Establishment of the Darling Mills Creek Site Compound

NorthConnex is a nine kilometre tunnel that will link the M1 Pacific Motorway at Wahroonga to the Hills M2 Motorway at West Pennant Hills, removing around 5,000 trucks off Pennant Hills Road each day. For traffic travelling from the M2 in and out of the tunnel, work is being done to build an additional lane westbound between Pennant Hills Road and Windsor Road.

Work to widen the Darling Mills Creek Bridge started in April 2016 and will take up to 18 months to complete. On 6 June 2016 a section of the Murri-yanna track was closed for safety reasons and widening work carried out.

Establishment of the site compound under Darling Mills Creek Bridge will start on 19 September 2016 and will take approximately two months to complete, weather permitting.

The approved site will be used as an ancillary facility and to support construction activities required for the integration work. This will include areas for laydown and a site office.

Work activities

Site compound establishment activities include:

- Foundation activities
- Delivery and installation of the compound
- Environmental controls.

Once the site compound is established, construction activities to widen the Darling Mills Creek Bridge will continue. Access in and out of the site will be via the Hills M2 Motorway as required, with limited access for movement of equipment via Ventura Road.

Plant and Equipment:

- Excavators
- Compressors
- Compactor
- Rollers
- Water cart
- Cranes
- Concrete trucks
- Generator
- Hand tools
- Concrete vibrators
- Trucks.

transurban

The work will be carried out during standard construction hours from **7am to 6pm on weekdays** and **8am to 1pm on Saturdays**.

You are likely to experience increased noise during some of these activities and we will make every effort to minimise impacts by:

- Scheduling work during standard day time construction hours
- Notifying residents and businesses before work starts near their property
- Using non-tonal reversing beepers on all machinery
- Turning off equipment and vehicles when not in use
- Where possible directing noise generating equipment away from residential properties.

We thank you for your patience, and if you have any questions or complaints, please don't hesitate to call us on 1800 997 057, email enquiries@northconnex.com.au or visit the NorthConnex Community Information Centre at 118 Yarrara Road, Pennant Hills, open weekdays from 9am to 5pm.

Yours sincerely

NorthConnex Project Team
